Summary

The Teacher and Staff Survey is conducted annually at the beginning of each school year. The deadline for schools to submit survey data is *December 1st each year*. The data collected includes the full-time equivalent (FTE), salary, benefits and contracted services of staff employed by Vermont public school organizations. Data from the independent academies (private schools that have publicly funded students) are displayed in separate tables. The Teacher and Staff Survey data is used to calculate multiple education indicators including sum of FTE, average salary, student-to-teacher ratio and distribution by staff category.

Teacher and Staff FTE Codified by Gender

Summary

On Dec. 1, 2013, 75 percent of Vermont public school FTE positions were female; the proportion of each gender varied by staff group. Females had the higher FTE in every function code except for transportation (2700) and Operations & Maintenance (2600). Direct instruction teachers (without teachers aids) were 74 percent female. Figure 4 displays the gender breakdown by function code. School administration (2400) and Support Services (2200) had staff categories with a male majority. Principal FTE (staff category 501) is now gender neutral. This is the first year males have not had the majority of principal positions in Vermont (fig. 5). Male vocational and adult program directors (staff category 311) also held the majority of FTE positions at 56 percent.

Student-to-Teacher Ratio

Purpose

Table three lists student-to-teacher ratios for each school and supervisory union in Vermont. This ratio describes the relationship between the number of enrolled students and the number of full-time equivalent (FTE) teachers. The FTE count used to determine this ratio includes regular classroom teachers as well as those teachers who do not have regular classroom assignments but have teaching responsibilities such as art, music, or special education. Student-to-teacher ratios can provide information about teacher workload as well as the amount of individual attention that might be available to students.

Student-to-Teacher Ratio Calculation

The student-to-teacher ratio was calculated by dividing FY 2014 student enrollment by the FY 2014 teacher FTE count in each school. In order to maintain consistency with the National Education Association's standards for student to teacher ratio report, student enrollment (October 1, 2013 headcount) was used as the numerator rather than the student FTE count. The ratio includes kindergarten, elementary, secondary, and ungraded teacher FTEs. Pre-Kindergarten students and Pre- K teacher FTE were not included in this survey due to reporting inconsistencies. Vocational teachers were not included in the FY 2014 student-to-teacher ratio. In previous years, schools that operated technical centers included vocational teachers in their teacher FTE counts, which resulted in their student/teacher ratios being lower than other high schools.

Summary

Vermont's average student-to-teacher ratio was 9.99 for FY14 (2013-2014). Student-to-teacher ratios ranged from 4.37 (PS148) to 20 (PS150).
